The Notice of Allowability mailed 02 February 2006 was in error in its indication that a supplemental oath was required, in order to address non-initialed and non-dated corrections to the address of inventor Sanger on page 4 of the oath of 08 February 2001, as stated on page 2 of that Notice. As pointed out by Applicant's representative during a telephonic interview on 09 February 2006, an Application Data Sheet was filed concurrently on 08 February 2001, which recited inventor Sanger's correct address. Per 37 CFR 1.67(a)(3), deficiencies in the oath under 37 CFR 1.63(c) regarding incorrect inventor addresses may be corrected by an Application Data Sheet. Accordingly, no further action is required by Applicant.

The indication in the Notice of Allowability mailed 02 February 2006 that a supplemental oath was required is hereby VACATED.

The Examiner's Amendment to the specification, recited on page 2 of the Notice of Allowability mailed 02 February 2006, is correct and remains of record.
